RPSG SOLVANTA - Powering the next chapter of India's energy journey

Jaipur Manufacturing Campus: A world class **1 GW solar module manufacturing facility** designed with advanced automation, precision testing and a quality first mindset. Built in a record six months, the plant reflects the Group's commitment to Make in India and nation building.

RPSG Solvanta is now expanding to a **3 GW solar cell manufacturing line**. This strengthens domestic supply chains and elevates India's renewable energy capabilities.

WHY SOLVANTA

Where trust meets technology

- **Legacy and Strength:** Supported by 200 years of RPSG Group's heritage and financial resilience.
- **Proven Performance:** Modules deployed by Purvah Green Power, the Group's renewable IPP that validates long term reliability.
- **Manufacturing Excellence:** A highly automated 1 GW facility scaling to 3 GW and beyond with stringent quality control and precision engineering.

SOLVANTA MODULES

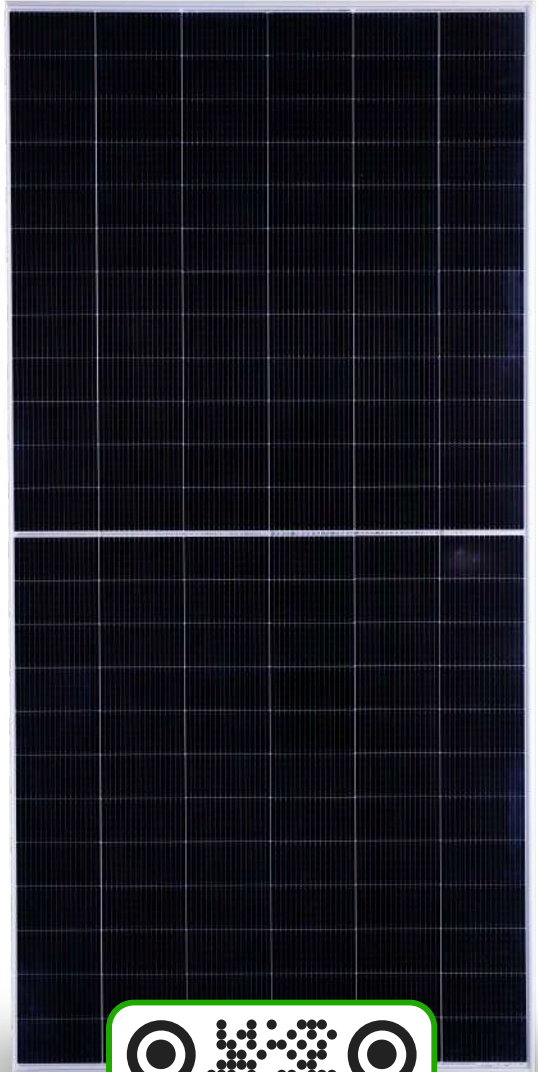

Made in India. Trusted across the world
Every Solvanta module is engineered for high efficiency, long life and consistent output across diverse climatic conditions. Our testing protocols meet stringent global standards to ensure performance you can depend on.

PRODUCT HIGHLIGHTS

- High efficiency monocrystalline technology
- Rigorous quality checks with full traceability
- 30 year performance warranty
- 12 year product warranty
- BIS and IEC certified

ASSURANCE OF QUALITY

Each RPSG Solvanta module carries a **25 year performance warranty** backed by the RPSG Group's legacy of trust and governance.
